ETHIOPIAN FOOD & DRUG AUTHORITY

ቁጥር/Ref.No. ወሪ/ሪ29.7/3248

ቀን/Date 09 JUL 2026

To: All Medicine Market Authorization Holders and/or Manufacturers

Subject: Third and Final Notice for Registration in the EFDA-MVC Traceability Hub

The Ethiopian Food and Drug Authority (EFDA) issued its Second Call on 16 February 2026, requiring all Marketing Authorization Holders and/or Manufacturers that export medicines to Ethiopia to complete their registration in the EFDA-MVC Traceability Hub by 30 April 2026.

Despite the clear deadline and the warning that it was the last notice, the Authority observes that a number of Marketing Authorization Holders and/or Manufacturers have still not completed the required registration. Based on the request that we received from different Market Authorization holders the Authority decided to extend the registration time for the last time.

Therefore, Acknowledging those market authorization holders and/or manufacturers who completed their registration in the hub, the Authority urges **all market Authorization holders and/or Manufacturers to complete their registration in the EFDA-MVC Traceability hub until October 30, 2026 from the date of issuance of this letter**. This is the last notice to complete the registration process. Failure to comply with this requirement may result in regulatory enforcement actions as deemed necessary by the Authority

With regards

Seyoum Wolde
